

Material data:

DX51 D+Z 275 MA-C

Galvanized (Sendzimir process) 3 x 50 mm

Yield strength 200 N/mm²

Tensile strength 275 N/mm²

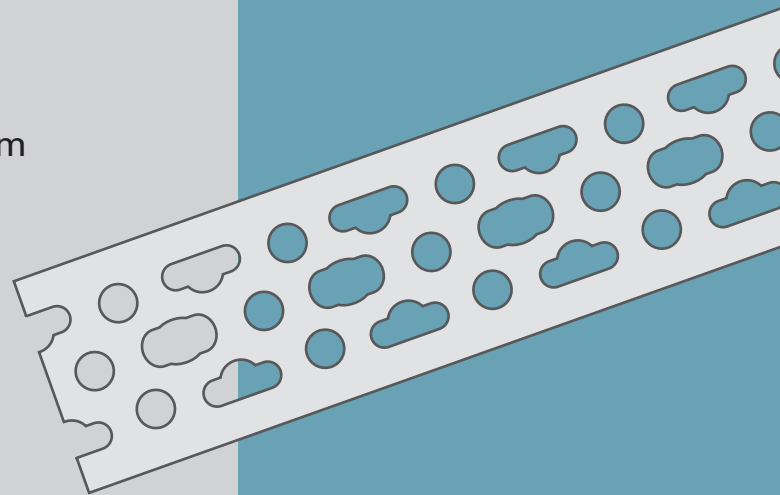

Weight 0,83 kg/m

Cross sectional data:

A = 88,50 mm²

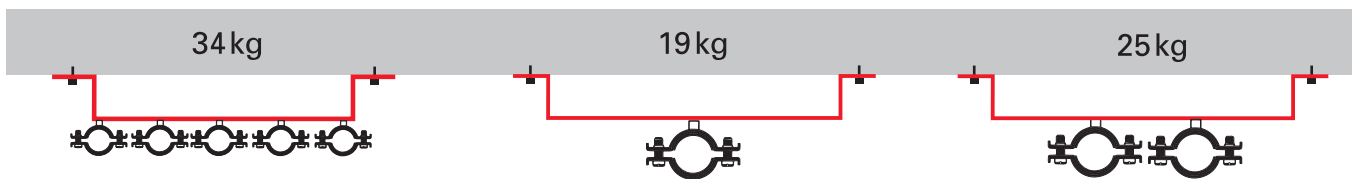

W = 44,25 mm²

I = 66,38 mm²

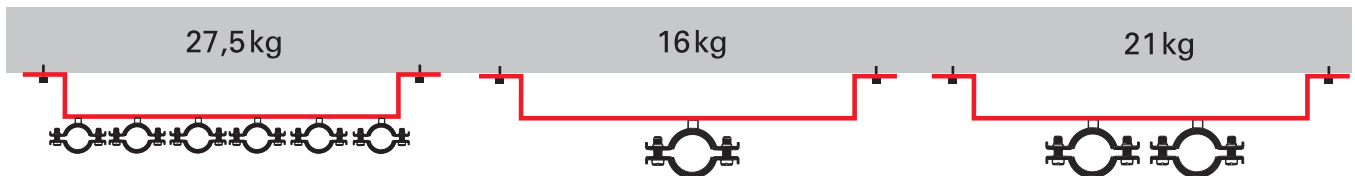

LEIFELD Strap load examples

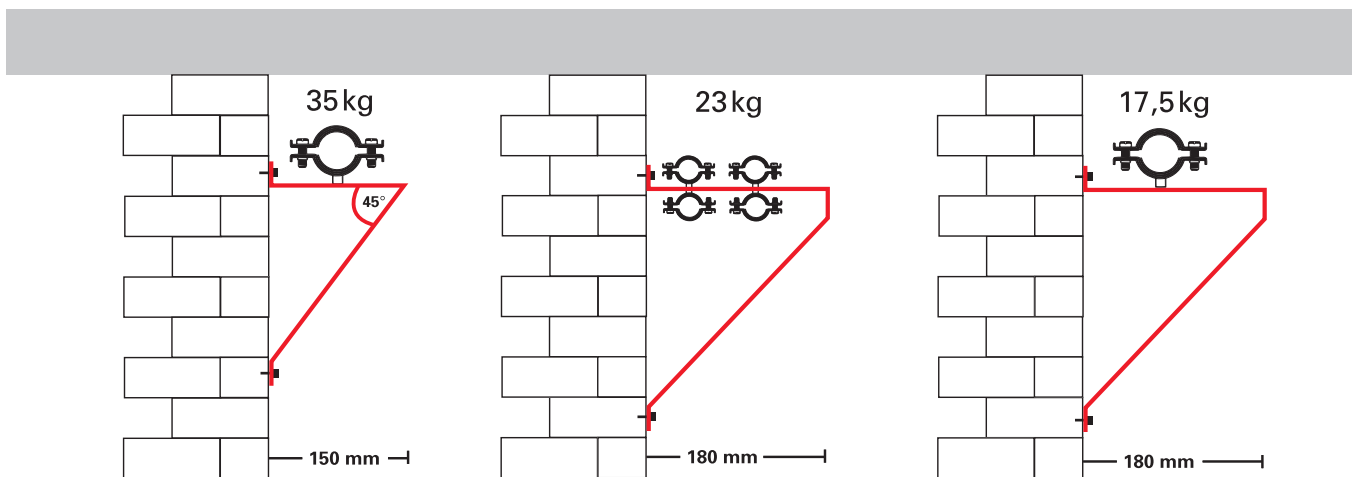

Suspended bracket: Length = 250 mm with various load examples

Suspended bracket: Length = 300 mm with various load examples

Wall mounted bracket:

The illustration above serves only as an example. Due to the inherent versatility of the LEIFELD System, different length and angle combinations are possible, each producing it's own unique load characteristics.
